

Estimated Total Calf Production on 640 Acres*

	Herd One	Herd Two
Number of cows	60	50
Average weight	1,216 lbs.	1,571 lbs.
Estimated acres per cow	2.35 acres	2.85 acres
Estimated calf production	29,184 lbs.	31,420 lbs.

* Estimates for total calf production are based on a weaning weight of 40 percent of cow weight and grazing pasture in western North Dakota producing 1,560 pounds of herbage per 30.5-day months.
