

# Six Effects of Knowing the Genomic Makeup of Your Bulls

We add to the knowledge we gain from the current EPDs available on the bulls we buy

- 1) And that leads to increased accuracy in our selection.
- 2) And that leads to better placed money when we buy bulls.
- 3) And that leads to better performing cattle within the environments we are raising them in.
- 4) And that leads to more opportunity to make money.
- 5) And that leads to a better beef business.
- 6) And that leads to making us all happy.
