2 medium red potatoes (½ lb.),
washed and cubed
3 large eggs
3 Tbsp. milk
¼ tsp. pepper
½ tsp. salt
½ c. green onion, sliced
Salsa (optional)

Boil potatoes in a 2-quart saucepan covered for six to eight minutes or until tender; drain. In medium bowl, beat eggs, milk, salt and pepper; set aside. In skillet sprayed with nonstick cooking spray, cook potatoes until light brown. Add onion and cook about one minute, stirring constantly. Add egg mixture. As the mixture begins to set at bottom and sides, gently lift cooked portions with spatula so that the uncooked portions flow to the bottom. Avoid constant stirring. Cook three to four minutes or until eggs are cooked throughout but still moist. Top with salsa, if desired.

APRIL 2011

Many people are pressed for time, but making a meal does not have to be a time-consuming task. With a few helpful tips, cooking a quick and healthful meal will be a breeze.

QUICK TIPS

- For a quick meal on the go, make a pita pocket sandwich. Simply stuff a pita with veggies and/or meat and be on your way.
- To boil water faster, start with hot water and cover the saucepan with a lid.
- If you have leftover cooked or grilled chicken, cut it up, place recipe- or meal-sized amounts in freezer bags, and freeze them for up to four months.
- Cook extra pasta or rice. Drain and toss the pasta or rice with a little oil to prevent sticking. Place the desired amount in storage bags and either store in the fridge for up to five days or freeze for up to six months.
- Hard-cook several eggs for a quick and easy addition of protein to any meal. Use hard-cooked eggs within one week.
- Make your own frozen veggies. Chop, slice or dice fresh vegetables such as onions, bell peppers, carrots and celery. Arrange in a single layer on a foil-lined cookie sheet, freeze until firm, place the desired amount into freezer bags and freeze for up to one month. They will be ready to use in your favorite recipes.
- Check the number of servings a recipe makes. If the leftovers do not sound appealing, adjust the recipe size by half (if possible). Or if leftovers are welcome, double the batch and freeze the food in meal-sized portions.
