### Weed control in flax (2003)

Cathay flax was seeded May 14 at 60 lb/A. Individual plots were 10 x 30 ft and replicated three times. PRE and POST treatments were applied May 14, and June 13, respectively. The primary weeds evaluated were redroot pigweed (Rrpw), common lambsquarters (Colq), wild buckwheat (Wibw), and Pennsylvania smartweed (Pnsw). Flax was harvested September 5.

#### PRE

- **Spartan** 2.67 oz: 77, 50, 91, 100, 83, 96, 77, 58, 88, 0, 48, 85, 0, 0, 0, 17, 53.1
- **Spartan** 5.33 oz: 90, 73, 93, 100, 95, 98, 89, 75, 91, 20, 64, 89, 0, 0, 0, 21, 53.3
- **Spartan** 10.67 oz: 99, 96, 98, 100, 100, 100, 94, 91, 97, 70, 77, 90, 12, 0, 1, 19, 53.6

#### PRE/POST

- **Spartan**/Harmony a 4 oz/0.167 oz: 86, 100, 100, 100, 100, 100, 100, 100, 98, 97, 0, 99, 99, 0, 27, 10, 18, 53.8
- **Spartan**/Harmony a 4 oz/0.25 oz: 85, 100, 100, 100, 100, 100, 85, 99, 98, 0, 99, 100, 0, 35, 11, 17, 53.7
- **Spartan**/Bronate b 2.67 oz/11.4 fl oz: 75, 92, 98, 98, 100, 100, 75, 99, 95, 0, 91, 92, 0, 11, 1, 23, 53.6

#### POST

- **Bronate** b 11.4 fl oz: 0, 91, 95, 0, 100, 100, 0, 97, 99, 0, 95, 98, 0, 11, 2, 19, 53.7

LSD (0.05) | 6 | 23 | 4 | 2 | 18 | 5 | 5 | 24 | 4 | 6 | 28 | 9 | 2 | 2 | 2 | NS | 0.9

CV | 5 | 18 | 3 | 1 | 12 | 3 | 5 | 18 | 3 | 31 | 23 | 7 | 58 | 12 | 37 | 16 | 0.9

*Spartan applied PRE did not cause any visible flax injury except when applied at 10.67 oz, which is 2-4 times the normal use rate. Harmony GT caused significant crop injury, and tended to reduce yields compared to Bronate Advanced. No adjuvant was applied with Harmony GT.

All postemergence treatments provided excellent weed control. Weed control increased as Spartan rate increased. Weed control ratings with Spartan alone were lower at the July 1 evaluation compared to June 7, but then increased at the July 30 evaluation. Weed growth may have slowed or stopped in July due to dry conditions or due to additional activation of Spartan following a single rain event on July 18. June and July were very dry with the only significant rainfall on July 18 (0.55 in).
