USE OF BREEDING CRATE

Support board on two 2"x6" footboards with front ends resting on cleated gate and rear ends on cleated floor. Adjust height to suit; then insert a 2"x6" bar through slats and under 2"x6" footboards.

Caution should be used to prevent cracking animals jaw with headgate.

NOTE:

1. Use carriage bolts wherever practicable. Recessed head to prevent injury.

2. All lumber in contact with earth should be pressure treated with creosote or similar preservative. All other lumber to be painted with wood preservative.

3. All metal to be galvanized or painted with a metal preservative.
