registration link above is not
active, please contact an
event coordinator:

Liz Smith: liz.smith@ndsu.edu

Peter Gag: peter.gag@ndsu.edu

January 7, 2022: Challenges of Growing Trees in North Dakota

Planting trees in a prairie landscape – what does this mean?

January 14, 2022: ND Statewide Windbreak Renovation Initiative

Tips, tricks, and lessons learned providing technical and financial assistance to restore deteriorated windbreaks.

January 21, 2022: How to Scout a Windbreak

Windbreaks should be scouted annually, but what exactly are we looking for?

January 28, 2022: Windbreak Performance Assessment

Density is destiny.

February 4, 2022: What the Trees are Trying to Tell You

Foliage and stem characteristics that can demonstrate particular health issues.

February 11, 2022: 101 Ways to Kill a Tree

Sometimes we are our windbreak's worst enemy.

February 18, 2022: Specimen vs. System

Windbreaks are complex systems designed to serve a particular purpose—learn how this is different than landscaping.

February 25, 2022: When Web Soil Survey Lets You Down

Web Soil Survey is a powerful tool, but windbreak planners need to dig deeper.

March 4, 2022: Forest Disturbances

Tree growth is dynamic – how disturbances shape water, light, and nutrient availability

March 11, 2022: Renovation Techniques

Extending the life of a windbreak with - and without- heavy machinery.

*This program is made possible through funding provided by the USDA Forest Service.
USDA and NDSU are equal opportunity providers.*
