AGRICULTURE AND APPLIED ECONOMICS COOPERATIVE INTERNSHIP

NATIONAL RURAL UTILITIES COOPERATIVE FINANCE CORPORATION (CFC) is collaborating with the Department of Agribusiness and Applied Economics to offer several agribusiness and applied economics cooperative internships. CFC is a member-owned, nonprofit cooperative finance corporation. We are the premier market lender for the nation’s electric cooperatives. Our loans help our members acquire, construct, and operate the utility infrastructure needed to deliver services that improve the quality of life in rural areas. We also provide credit enhancements, including letters of credit and guarantees of debt obligations, for our members.

As a cooperative, our goal is not to maximize our income but to offer our members affordable financial products and services, consistent with sound financial management. Our operations are grounded in the seven cooperative principles, and we adhere to our values of service, integrity, and excellence.

Located in Loudoun County, Virginia, CFC is just 27 miles from Washington, D.C. most notably known for its rich history, museums, diversity, political connectedness, shopping and endless entertainment opportunities.

Description
The paid internship is a rotational position. Students filling these positions will handle a wide range of important duties in several functional areas, among them Member Services, Treasury, and Corporate Communications. This internship is flexible and tailored to fit the educational and career goals of the student. Students may be eligible to earn credits through the NDSU Cooperative Education Internship Program (CEIP). Students are paid a competitive hourly rate and will receive reimbursement for the course credit hours.

Responsibilities and training may include:

Member Services
- Performing audit reviews
- Inputting risk rating data
- Receiving training on loan modifications, waivers, consents and underwriting

Treasury
- Practicing lending rate and investment builds
- Compiling electric cooperative financial and nonfinancial information for loan syndication, rating agency, and investor meetings
- Conducting economic research and analysis
- Participating in capital markets transactions Corporate Relations and Communications
- Providing writing assistance on Economic topics for Solutions Industry Newsletter

Requirements
This paid internship is available to students currently enrolled in NDSU’s Department of Agribusiness and Applied Economics undergraduate and graduate programs. Applicants should be proficient in Microsoft Office applications and have a relevant academic background. Attention to detail, the ability to manage competing priorities, and excellent communication skills are all essential to this position.

Students in these majors are encouraged to apply
Agribusiness, Agricultural Economics, and Applied Economics
