

GENERAL MANAGER POSITION LOCATED IN SOUTHEAST SOUTH DAKOTA: This company would hire someone who currently manages feed mills or managing agronomy or grain operations currently. This is an 8 to 10 million company, so a strong Location Manager would fit perfectly in this position. They handle about 3500 ton fert sales per year, 1500 ton feed sales per year and 700,000 to 800,000 bushels of grain per year. This is a smaller company, but service and customer satisfaction are huge and the person would operate it as though it was their own. They have a very loyal customer base and this position will pay between \$70k-\$80k and include company vehicle, full benefits and 401k.
