Vonnahme Presents in Switzerland
Kimberly Vonnahme, Associate Professor in the department of Animal Sciences, gave the keynote address at the second COST Action Workshop on August 23, 2011, at the Agroscope Liebefeld-Posieux Research Station in Posieux, Switzerland. Dr. Vonnahme’s presentation was entitled, “How the maternal environment sets the stage for postnatal growth and development.”

Participants were from Ireland, Switzerland, France, Italy, Belgium, Germany, Spain, and Portugal.

Animal Sciences Clothing Available
As the autumn air approaches, it’s time to stock up on NDSU Animal Sciences clothing. This fall we have many clothing items to choose from including hats, thermal long-sleeve shirts, and sweatshirts. We also have assorted sizes of the popular long sleeve button down dress shirt in both green and black for $20 (not pictured). Not only is the attire great for work, but also makes excellent Christmas gifts. (It sure beats shopping at the mall.) Size and selection are limited and on a first come, first served basis; you will want to stock-up soon! Attached to the newsletter is a price sheet and order form. Feel free to call the number listed on the bottom of order form, or email christina.schwartz@ndsu.edu to place your clothing order.
**Moos, Ewes & More a Big Success** – Erika Berg

The second annual Moos, Ewes & More event was held on Saturday, September 17, at the NDSU Equine Park. This year 207 adults and 255 children attended the event. The feedback was excellent; and we believe it is a fantastic way to highlight some of the good things that are happening at NDSU and in the Animal Sciences department!

If anyone has thoughts, comments, suggestions, likes or dislikes, please forward them to Erika Berg (erika.berg@ndsu.edu) or Stacey Ostby (stacey.ostby@ndsu.edu).
