Baseline Safety Training – Jennifer Baker, NDSU Safety Office
Baseline Safety Training is a mandatory training for all North Dakota State University employees – faculty, staff and student employees. If you are a supervisor, it is mandatory that you take both Supervisor Safety Training and Baseline Safety Training. Both courses must be completed on an annual basis.

If you are unable to attend any of the classes, I encourage you to go online, complete the course, and submit the short quiz to the Safety Office as proof of your compliance. For your convenience, the following is the URL for the safety training courses:
