Animal Sciences Seminar – Chung Park, Coordinator

Speaker: Dr. Kim Vonnahme
ANSC Associate Professor

Title: Phree Philosophy Phriday: A Perspective of Teacher-Student Responsibilities in Education

Date/Time: Friday, April 25, 2014; 2:00 p.m.

Kim Vonnahme grew up on a livestock and grain farm near Breda, IA. She received her B.S. degree from Iowa State University (1996), her M.S. (1998) from Oklahoma State University, and her Ph.D. (2003) from the University of Wyoming. She completed a post-doc under the direction of Larry Reynolds and accepted a position as assistant professor at NDSU in April 2004. Dr. Vonnahme’s research focuses on the impacts of maternal nutrition on fetal and placental development in sheep and cattle.

Jodie Haring will pass on the SPAM Award prior to the start of seminar. Join us to find out who is the newest recipient of this prestigious department award!

Vern Anderson Retirement Reception

The Department of Animal Sciences invites you to a Retirement Reception for Dr. Vern Anderson on Friday, April 25, in Hultz 104 from 3:00-4:00 p.m. Cake and refreshments will be served.

The reception will follow seminar, so there is no Friday Afternoon Club this week.
Animal Sciences Guest Speaker – Britley Calkins
Speaker: Karen Shenoy, DVM, Hill’s Pet Nutrition
Topic: Nutrition for Small Animals
Date/Time: Wednesday, April 30; 12:00-12:50 p.m.
Location: Hultz 104

Lunch will be provided to all who RSVP with Char Kuss at 231-7712 by 5:00 p.m. on April 25.

Topic: Professional Development and the Interview Process
Date/Time: Wednesday, April 30; 5:00-6:00 p.m.
Location: Robinson 106

Dinner will be provided to all who RSVP with Char Kuss at 231-7712 by 5:00 p.m. on April 25.

Dr. Karen Shenoy is a professional consulting veterinarian team leader for Hill’s Pet Nutrition. She has worked for Hill’s for more than six years and has served in previous roles as a veterinary affairs manager and practice development veterinarian. Dr. Shenoy has a passion for teaching and an interest in clinical nutrition. She also has been involved with wildlife hospitals, and served a four-year term on the National Wildlife Rehabilitators Association board of directors. Dr. Shenoy has also worked as an adjunct instructor in a veterinary technology program and as an associate at a small animal/exotics practice.

Prezotto Receives Multiple Awards
Ligia Prezotto, a Ph.D. student studying under the direction of Dr. Kendall Swanson, is the recipient of three different awards.

- **International Stockmen’s Educational Foundation Travel Fellowship**
  Ligia used this award to travel to the 2014 International Livestock Congress in Denver, CO, in January. Ligia is one of 12 recipients representing 11 universities from 6 countries. The selection is based on scholastic achievement, leadership experiences, and professional references.

- **Endocrine Society’s 96th Annual Meeting and Expo Travel Award**
  Ligia will use this award to attend the Early Career Forum and the 16th International Congress of Endocrinology in Chicago, IL, in June.

- **2014 ASAS Agri-King Outstanding Graduate Student Award**
  Ligia will use this award to attend the Joint Annual Meeting in Kansas City, MO, in July. The award also includes a two-year complimentary membership in ASAS, a $1,500 award, and a plaque. A single recipient is chosen each year. The purpose of the award is to recognize the achievements of outstanding graduate students working toward the mission of ASAS.
**Students Nominated for ASAS Undergraduate Recognition** – Greg Lardy

The students listed below were nominated for the 2014 American Society of Animal Science Undergraduate Scholar recognition. The criteria for nomination are:

- Students must be enrolled in a four-year curriculum of animal science (dairy, food, meat, or poultry) for a period of at least two semesters or three quarters.
- Students must rank scholastically among the top 10% of senior, junior, or sophomore classes.
- Students must be of good moral character and intend to pursue a career in animal science.
- More than one student may be nominated if they rank scholastically in the top 10%, but nominations should be limited to truly outstanding individuals.
- Eligible departments are those offering animal science courses (dairy, food, meat, and/or poultry) consistent with the purpose of the society and leading to a Bachelor of Science degree.

**Animal Science Seniors** – Justin D. Bartholomay, Abbigael P. Gutierrez, Jill A. Hallin, Angela B. Johnson, Rachael A. Lagein, Allison M. Mustonen

**Animal Science Juniors** – Bayleigh M. Antonsen, Hannah J. Bakke, Anna M. Peterson

**Animal Science Sophomores** – Jessica R. Adamek, Lauren A. Ciernia, Ashley L. Giedd, Leah M. Hawkins

**Equine Science Seniors** – Janna M. Rice, Cambria S. Slaubaugh

**Equine Science Juniors** – Lacey Carlson, Christina F. Dulik

**Equine Science Sophomores** – Molly Lee
