A pair of elephants spent a few hours at the Equine Center on Sunday, June 8. The elephants, part of the Tarzan Zerbini Family Circus, were being transported from Washington to Toronto. The driver learned of the Equine Center online and stopped to rest and water the animals.

The Zerbini family were circus performers in Italy since at least 1763. Around 1900, the family moved from Italy to North Africa where they performed for the next 50 years, becoming the first and only family to cross the Sahara desert with a circus. They came to the U.S. in 1961. They currently tour the U.S. and Canada as TZ Productions.

The Budweiser Clydesdales will be at the Horse Park on July 26 as part of the track’s “Horses and Heroes Day” honoring service men and women during a full day of carded races. This is the first time they will be at the Horse Park. (Original story and photo from Valley News Live).

Animal Sciences alum Amy Trout is the supervisor of the Grant’s Farm Budweiser Clydesdale Stable in St. Louis, MO, where she trains the up and coming hitch geldings and manages the retired horses and sale horses. For more information about Amy, see the Animal Sciences Facebook page at www.facebook.com/NdsuAnimalSciencesDepartment.

Grad office 106 in Hultz Hall has been renumbered to room 113 to differentiate it from the custodian’s office with which it was once connected. Please make note of this change in your records.
