POSITION TITLE: Animal Science Production Intern

DEPARTMENT: North Dakota State University
Hettinger Research Extension Center, Hettinger, ND

SALARY: Commensurate with experience

SCREENING DATE: February 19, 2019, potential interviews the week of February 25 in Fargo

DESCRIPTION: The NDSU Hettinger Research Extension Center is recruiting for an Animal Science Intern for employment approximately mid-May through late August, 2019 (approximately 40 hours per week, housing provided at no charge). The Hettinger REC is an agricultural research center located in southwest ND with active research programs in sheep and cattle nutrition, reproduction, and management in addition to range and wildlife interactions and agronomy. Job responsibilities will include, but not be limited to:

- Assist in day-to-day farm management for a research facility that maintains 100 cows and 1000 ewes (lambing, haying, hoof trimming, vaccinations, etc.) (primary responsibility).
- Assist graduate research assistant and animal scientist in collection of research data (weighing, bleeding, feeding, etc.) for lamb feedlot and ultrasound trial (secondary responsibility).

MINIMUM QUALIFICATIONS:

- Ability to work with others.
- Pursing a B.S. in Animal Science or related major.
- Driver’s License.

TO APPLY: All interested persons should contact Dr. Christopher Schauer (Christopher.Schauer@ndsu.edu) for more information. Submit the following supporting documents to the Hettinger Research Extension Center, PO Box 1377, Hettinger, ND 58639, by the close of business on the screening date: 1) cover letter; 2) current resume; and 3) names, addresses, and phone numbers of two professional references. NOTE: Incomplete files will NOT be considered. Veteran's claiming preference must submit all proof of eligibility by the screening date. Proof of eligibility includes a DD-214 and if claiming disabled status, a current letter of disability.
