Research Physiologist (Ruminant Nutrition) Position

The U.S. Department of Agriculture (USDA), Agricultural Research Service (ARS), Northern Plains Area is seeking highly qualified candidates for a permanent full-time Research Physiologist, for the Nutrition and Environmental Research Unit at the U.S. Meat Animal Research Center, in Clay Center, Nebraska. Salary range of $74,596 to $115,313 per year. The incumbent will work to improve nutrient management and efficiency in beef cattle, and is responsible for an independent research program concerned with identifying mechanisms of improved feed efficiency in beef cattle. The overall objective of incumbent’s research will be to improve production efficiency of beef cattle by identifying physiological and metabolic mechanisms responsible for variation in nutrient utilization and determine factors responsible for their regulation. Applications must be electronically received by 11:59 p.m. EST on October 29, 2019. USDA is an equal opportunity employer and provider. Apply at https://www.usajobs.gov/GetJob/ViewDetails/547211100
