

December 4, 2007

Dear Cooperator:

If you wish to enter **one or more hybrids** in the Hybrid Corn Performance Trials, please indicate your intention with your identification and payment by March 15<sup>st</sup>, 2007. **Please, note the deadline for receiving seed and making changes is April 14, 2007.** Seed received on or after April 15 will not be included in our trials. In addition, changes made on or after April 15 will not be considered.

The Corn Project Leader, M. J. Carena, Department of Plant Sciences, North Dakota State University and North Dakota Agricultural Experiment Station, Fargo, ND 58105, agrees to evaluate the corn genotypes you submit for evaluation in comparison to all other entries submitted for each trial. Late-maturing hybrids might not be harvested. Standard procedures for experimental design and statistical analyses will be used. The following data will be collected: Grain yield, grain moisture content at harvest, root and stalk lodging, dropped ears, and test weight. The cooperator agrees to provide accurate relative maturity (RM) of each hybrid entered. Incomplete and/or not clear information will not be accepted.

The data for 2007 will be published in the Hybrid Corn Performance Trial Report. Each cooperator will be provided a reasonable number of copies of the report without charge. For your information the data for 2007 will be summarized on the Fargo Main Station web address first:

<http://www.ag.ndsu.nodak.edu/fargo> (clicking on 2007 Variety Performance Data and Corn for Grain)

Then, this information will be linked to the State Extension web address:

<http://www.ag.ndsu.nodak.edu/aginfo/variety/index.htm/corngrain.htm>

For future reference, data will be reported in the Fargo Main Station web address as soon as analyzed. Please contact the project leader if more information is needed.
