

Foundation Seed Increase Program

The Langdon Research Extension Center produces, conditions, and sells Foundation grade seed for growers in the region. The varieties of crops that are available for the 2007 growing season are listed below:

HRSW – Glenn

Durum – Divide, Lebsock

Barley – Stellar-ND, Robust

Flax – Nekoma and Rahab 94

Growers who have grown seed for certification in one of the last four years who request seed prior to December 1 will be guaranteed an allocation. Any seed inventories available after December 1 will be sold on a first come, first serve basis. Seed availability and prices may be obtained by calling the Langdon Research Extension Center.
