

Cass County Extension Service

Urban Youth Garden Program

The Cass County Extension Urban Youth Garden Program is open to youth six to seventeen years of age. Each boy and girl who enrolls in the garden program will have a 20x20 ft. garden plot to plan, plant, maintain and harvest as their own.

Youth who enroll in the Urban Youth Garden Program will be assembled into garden groups with one or more adult garden leaders per group.

The youth will be assigned garden plots. The adult garden leaders will provide gardening educational materials, provide counsel to the youth gardeners and help coordinate the Urban Youth Garden Program. A program fee applies.
