NDSU Horticulture Research Farm Field Day
Wednesday, August 9, 2017  4:00-7:00 pm

Branch Out! Come learn with us!

4:00pm - NDSU Administration Welcome
4:15pm - Trailer Tour of faculty and student horticultural research
5:15pm - Short Info Sessions near the Shed
6:15pm - Arboretum Tree Walk

The farm is a hidden gem. Due to the remote location, there are special precautions to consider. Please come prepared! You may want a lawn chair, sunscreen, and insect repellent. While there are modern bathrooms, there is no potable water. Bring a full water bottle; we will have water on hand for refills. A light dinner will be available during a portion of the event.

Horticulture Research Farm Directions

From East/West:
Take I-94 to Wheatland and take Exit 324. Turn north on 149th Ave./County Road 5. Shortly after driving through Wheatland, turn west on 34th St. SE. Turn north on 148th Ave./County Road 5. At about 30th St. SE, (just before the turn to Absaraka), the road changes to gravel at a slight curve. Continue on 148th Ave./County Road 5 heading north about 3/4 mile. Turn east on 29th St. SE, (field road, sign posted) and proceed 1/2 mile to Horticulture Research Farm bordered by trees.

From North/South:
Take I-29 to Argusville and take Exit 79. Turn west on 25th St. SE/County Road 4 and travel approximately 20 miles. Turn south on 148th Ave./County Road 5 (gravel) for approximately four miles. Turn east on 29th St. SE, (field road, sign posted) and proceed 1/2 mile to Horticulture Research Farm bordered by trees.
