

# 2008 Cultivar Trials of Bedding Plants

Barbara A. Laschkewitsch, M.S.  
Trial Garden Coordinator

Ronald C. Smith, Ph.D.  
Extension Horticulturist – Department of Plant Sciences

## Introduction

The Plant Sciences Department at NDSU conducted performance trials on over 300 annual bedding plants during the 2008 growing season. The main research garden is located in Fargo, on the corner of 18<sup>th</sup> street and 12<sup>th</sup> avenue north. Two other sites are located at the Research Extension Centers in Dickinson and Williston, ND. Official entries (usually 150-200) are grown at all three sites while an additional 150-200 cultivars are also grown at the Fargo site.

The Horticulture Demonstration and Research plots in Fargo are for education, research and display purposes. Current gardens include the bedding plant trials, daylily display gardens and iris display gardens. Two small shade beds for annuals were added this year as well as pathways in the perennial area and a wheelchair accessible garden. Additional gardens being planned include a rose garden, an Indian garden, an area for vegetables and a sensory garden. The bedding plant trial is an official display garden of All-America Selections. The daylily garden is an official display garden of the American Hemerocallis Society and houses more than 1100 cultivars of daylilies, most of which are considered historical, or pre-1970, cultivars.

The beds are open to the public throughout the growing season and guided tours are available upon request. See ‘Contact Information’ on page 5 for more information.

## Culture

The majority of the plants for the bedding plant trials are seeded in the horticulture and forestry greenhouse on the NDSU campus from

January through April. When at the proper stage, seedlings are transplanted into cell packs containing a peat-based growing medium. Exceptions to this are entries from Fischer USA, Inc. which were received as rooted cuttings in March and finished in the greenhouses.

The Dickinson and Williston sites had six plants of each official cultivar tested while Fargo had twelve of each official cultivar, 12 plants of mixed cultivars, and 6 of the unofficial cultivars planted. The Dickinson beds were planted May 20 and the Williston beds on May 21. In Fargo, planting took place from May 28 until June 10. Rain during the first week in June delayed the Fargo planting a bit.

In Dickinson and Williston plants were watered in with Scotts Miracle-Gro® Liquafeed™ (12-4-8)<sup>1</sup> while Preen® Garden Weed Preventer Plus Fertilizer (9-17-9) was put down at the Fargo site. Preen was also put down at the Dickinson site. Fargo plants were fertilized once more in July with Miracle-Gro® Liquafeed™ while the Dickinson staff fertilized June 16 and July 30. Liquid iron was also applied to the *Verbena* and *Calibrachoa* in Dickinson to combat yellowing foliage.

Weeding was done by hand in Dickinson and Williston while Razor® and Preen® were used in Fargo along with hand-weeding.

The Dickinson site has overhead irrigation set up on a timer, while Williston and Fargo have drip irrigation applied as needed.

## Site Information

### Fargo

The main trial garden is located in Fargo at the corner of 18<sup>th</sup> street and 12<sup>th</sup> avenue north on the west side of campus. The majority of the annual beds are raised with a loam-compost mix of soil. Drip irrigation using t-tape is built into the beds.

Two shade beds for annuals were added into some trees on the site in 2008. This area will be expanded in the future. Wheelchair accessible gardens were also added and will be planted in spring 2009 with a mix of flowers and vegetables.

There were no major insect or disease problems at the Fargo site in 2008. Some Aster Yellows showed up late in the season on marigolds, vinca and some petunias.

As seen in table 1, temperatures in Fargo were slightly below average in May and June and slightly above average in July and August. Precipitation was especially heavy in June and August.

Table 1. 2008 and 1971-2000 May-August Average Temperature and Precipitation for Fargo, ND.<sup>2</sup>

	Average Temperature (°F)		Precipitation (inches)	
	2008	1971-2000	2008	Avg. 1971-2000
May	54	57.4	2.19	2.61
June	64	66.0	6.38	3.51
July	71	70.6	1.67	2.88
August	70	69.0	4.52	2.52

### Dickinson

The Dickinson Trial garden is located at the Research Extension Center on the west side of State Street. The soil here is lighter and sandier than in Fargo and the weather tends to be drier. Shade plants are grown in raised beds under natural shade provided by trees.

<sup>2</sup> Temperature and precipitation data are from NDAWN and the National Climatic Data Center.

As last year, *Calibrachoa* in Dickinson declined after July and were all dead by the September evaluation. Other than that, there were no significant insect or disease problems.

As seen in table 2, temperatures were a bit below average in May and June but a bit above average in July and August. Rainfall was below average all summer.

Table 2. 2008 and 1971-2000 May-August Average Temperature and Precipitation for Dickinson, ND.

	Average Temperature (°F)		Precipitation (inches)	
	2008	1971-2000	2008	Avg. 1971-2000
May	53	53.4	1.70	2.24
June	61	62.4	2.04	3.57
July	72	68.1	1.70	2.20
August	71	67.3	0.74	1.65

### Williston

The Williston Trial garden is located at the Research Extension Center on Highway 2 west of Williston. The soil here is also fairly light but heavier than in Dickinson. Drip irrigation is used for supplemental watering and shade plants are grown under the natural shade of pine trees.

There were no major insect or disease problems in the Williston beds. The geraniums were nice but did not perform as well this year as they have in the past.

Table 3 shows temperature and precipitation data for Williston.

Table 3. 2008 and 1971-2000 May-August Average Temperature and Precipitation for Williston, ND.

	Average Temperature (°F)		Precipitation (inches)	
	2008	1971-2000	2008	Avg. 1971-2000
May	54	57.1	1.38	2.09
June	62	65.7	2.13	2.72
July	72	71.1	0.78	2.45
August	70	70.2	1.30	1.63

## All-America Selections

The NDSU trial garden is an official display garden of All-America Selections (AAS). AAS was founded in 1932 as a way for home gardeners to learn about new and improved varieties of flowers and vegetables. The red, white and blue AAS logo found on seed packets, in catalogs, and in garden articles usually indicates superior cultivars that have been tested in a variety of locations across the United States and Canada. The following are AAS winners grown at all three locations in 2008.

### 2004 Winners:

*Celosia* 'Fresh Look Red'  
*Celosia* 'Fresh Look Yellow'  
*Gypsophila* 'Gypsy Deep Rose'  
*Hollyhock* 'Queeny Purple'  
*Petunia* 'Limbo Violet'

### 2005 Winners:

*Gaillardia aristata* 'Arizona Sun'  
*Vinca* 'First Kiss Blueberry'  
*Zinnia* 'Magellan Coral'

### 2006 Winners:

*Dianthus* 'Supra Purple'  
*Diascia* 'Diamonte Coral Rose'  
*Nicotiana* 'Perfume Deep Purple'  
Ornamental Pepper 'Black Pearl'  
*Salvia farinacea* 'Evolution'  
*Viola* F1 'Skippy XL Red-Gold'  
*Zinnia* 'Zowie! Yellow Flame'

### 2007 Winners:

*Celosia* 'Fresh Look Gold'  
*Petunia* 'Opera Supreme Pink Morn'  
*Vinca* 'Pacifica Burgundy Halo'

### 2008 Winners:

*Osteospermum* 'Asti White'  
*Viola* F1 'Skippy XL Plum Gold'

### 2009 Winner:

*Viola* 'Rain Blue and Purple'

## Evaluations

Plants were evaluated twice over the growing season for height, spread, vigor, uniformity of size and bloom, and overall appearance. In Fargo, the first evaluation was July 29 while the second was September 8 & 9. The Dickinson evaluations were July 9 and September 4. Williston plants were evaluated July 10 and September 3.

If plants had good bloom but were lacking in size uniformity, there is an \* preceding the height and spread measurement on the evaluation table for that site (pages 17-48). If the cultivar had good bloom, vigor and uniformity of size and bloom, there is \*\* preceding each height and spread measurement; and if a cultivar was an outstanding performer, there is \*\*\* preceding each height and spread measurement.

Top performers (\*, \*\*, or \*\*\* for either evaluation time) and star performers (\*, \*\* or \*\*\* for both evaluation times) for each location are on pages 6-16 of the report. The following 12 cultivars got top ratings at all 3 locations for both evaluation times:

*Begonia* 'BIG Red Green Leaf'  
*Begonia* 'BIG Rose Bronze Leaf'  
*Capsicum* 'Calico'  
*Gaillardia* 'Sunburst Burgundy Picotee'  
*Lobelia* 'Techno Heat Upright Light Blue'  
*Osteospermum* 'Tradewinds Deep Purple'  
*Pelargonium* 'Americana Rose Mega Splash'  
*Pelargonium* 'Avenida Mosaic Red'  
*Pelargonium* 'Graffiti Double Salmon'  
*Verbena* 'Lanai Lavender Star'  
*Verbena* 'Lanai Royal Purple with Eye'  
*Verbena* 'Lanai Upright Magenta'

## **Field Days**

Field Days in Dickinson and Williston were held July 9 and July 10, respectively, in conjunction with field days at the research extension centers. Field day in Fargo was not held this year due to construction in the beds.

## **Acknowledgements**

Many thanks go to supporters of the 2008 gardens: All-America Selections; Ball Seed Company; Ernst Benary of America, Inc.; Fischer, USA, Inc.; Grimes Seeds and Plants; and PanAmerican Seed. The support of these companies is greatly appreciated and we hope results from our efforts are beneficial in their research for new and improved cultivars.

Thanks also to Kris Ringwall and the staff at the Dickinson Research Extension Center, including retired county agent Jerry Larson; and Neil Riveland, Lorna Bradbury and the staff at the Williston Research Extension Center.

I'd also like to extend a special thank you to Ron Smith, extension horticulturist in the Plant Sciences Department at NDSU, and the Master Gardeners who volunteered their time in Fargo: Edna Holm, Margaret Loken, Gerri Elznic, Sandy Holbrook, Becky McCleary, Gayle Ferber, Linda Thorseth, Mary Beth Peterson and Kathy Johnson. Their help was appreciated more than they know. Without the assistance of so many talented and dedicated people, the bedding plant trials would not be possible.

A final thank you to Deb Tanner, publication coordinator/designer in Extension Agriculture Communication, who does a wonderful job designing the cover of the bedding plant trials cd.

## **Contacts**

## 2008 Site Evaluations and Measurements-Fargo, ND

Note-An \* preceding a cultivar measurement indicates good performance but lacking somewhat in size uniformity or bloom time; \*\* indicates a top performer with good bloom, vigor and uniformity; \*\*\* indicates outstanding performance. All measurements are in inches except where noted and ( ) indicates missing data. Seed/plant source list is on the last page of the report.

### Fargo-2008

Genus species 'Cultivar'	Seed/Plant Source	July 29				September 8 and 9			
		Height	Spread	Comments		Height	Spread	Comments	
<i>Achillea ptarmica</i> 'Gypsy White'	Syn	***9-10	***14-17	Very, very nice!		7-8	16-19	Some are dying but some are nice.	
<i>Acroclinium</i> 'Best Mix'	Pk	*12-19	*10-15	Good bloom but not uniform in size.		10-18	10-14	Plants are dying and flowers are faded.	
<i>Agastache cana</i> 'Purple Pigmy'	Pk	16-20	9-12	Just starting to bloom but good vigor.		**20-26	**22-24	Nice!	
<i>Agastache foeniculum</i> 'Golden Jubilee'	Pk, AAS '03	*13-15	*10-14	Good vigor but just starting to bloom.		**25-27	**22-25	Good vigor and nice bloom.	
<i>Agastache rupestris</i>	Pk	**17-22	**14-16	Good bloom and vigor.		**27-32	**28-30	Good bloom and vigor.	
<i>Ageratum houstonianum</i> 'Leilani Blue'	Pk	9-13	8-17	Not uniform in size but good bloom.		15-19	22-24	Dead heads detract from appearance.	
<i>Ageratum houstonianum</i> 'Patina Blue'	Syn	*5-7	*5-9	Nice little plants with good bloom but spread isn't uniform.		**7-9	**12-15	Nice bloom!	
<i>Alcea rosea</i> (Hollyhock) 'Queenly Purple'	AAS '04	15-20	13-16	Good vigor but blooms hidden under foliage.		**25-31	**17-24	Lots of bloom and good vigor.	
<i>Alternanthera dentata</i> 'Purple Knight'	Pk	3-5	10-14	Doing alright but not as vigorous as <i>Alternanthera</i> 'Royal Tapestry'.		3-5	8-12	No vigor and some are dying.	
<i>Alternanthera dentata</i> 'Royal Tapestry'	PAS	***4-6	***20-24	Nice ground cover.		**7-9	**20-25	Good vigor; nice ground cover.

<i>Verbena rigida</i> 'Rigida Rose'	Gri	10-12	14-16	Just starting to bloom.		**15-17	**13-16	Nice!	
<i>Verbena tenuisecta</i> 'Imagination'	Pk	**12-16	**30-36	Good bloom but size uniformity could be better.	13-15	36-40	Good vigor but flowers on outside edges only.		
<i>Viola</i> F1 'Skippy XL Plum-Gold'	AAS '08	4-5	8-10	Doing alright; not being eaten by rabbits.	3-5	7-10	Not too vigorous and some powdery mildew.		
<i>Viola</i> F1 'Skippy XL Red-Gold'	AAS '06	5-6	8-10	Doing alright; not being eaten by rabbits.	3-5	7-10	Not too vigorous and some powdery mildew.		
<i>Viola</i> F1 'Rain Blue and Purple'	AAS '09	4-5	8-9	Doing alright; not being eaten by rabbits.	3-5	7-10	Not too vigorous and some powdery mildew.		
<i>Zinnia angustifolia</i> 'Crystal Orange'	Pk	6-9	6-12	Good bloom but size not uniform.	14-16	10-20	Not uniform in size but good bloom.		
<i>Zinnia elegans</i> 'Magellan Coral'	AAS '05	**7-8	**8-10	Nice; uniform in size and bloom.	**12-16	**15-18	Nice!		
<i>Zinnia elegans</i> 'Magellan Mix'	Pk	4-11	7-13	Lost 6 of 12 plants; size not uniform.	8-18	13-18	Not uniform in height but bloom good.		
<i>Zinnia elegans</i> 'Zowie! Yellow Flame'	AAS '06	10-12	6-12	Spread not uniform.	**23-26	**18-20	Good bloom and vigor.		
<i>Zinnia elegans</i> 'Uproar Rose'	Pk	**20-22	**20-26	Nice; bright color!	*24-26	*33-36	Good bloom but some stems falling over.		
<i>Zinnia</i> hybrid 'Profusion Knee-High Red'	Ball	8-11	9-15	Small but bloom good.	**18-20	**26-28	Very vigorous and nice.		
<i>Zinnia</i> hybrid 'Profusion Knee-High White'	Ball	*10-12	*8-16	One plant really small; bloom good.	**18-20	**28-30	Very vigorous and nice.		
<i>Zinnia Marylandica</i> 'Zahara Coral Rose'	PAS	8-12	8-14	Most vigorous of the 'Zahara' zinnias; fairly good bloom.	**16-18	**18-20	Best of the 'Zahara' zinnias right now.		
<i>Zinnia Marylandica</i> 'Zahara Scarlet'	PAS	6-11	4-9	Not uniform in size but fairly good bloom.	11-13	18-20	Good bloom but not uniform in vigor; one plant splitting apart.		
<i>Zinnia Marylandica</i> 'Zahara White'	PAS	8-10	8-10	Better size uniformity but flowers not as showy as <i>Zinnia</i> 'Zahara Scarlet' or 'Zahara Yellow'.	9-16	8-25	One really small plant; others doing alright.		
<i>Zinnia Marylandica</i> 'Zahara Yellow'	PAS	5-10	6-9	Doing alright but not uniform in size.	*11-13	*15-18	Lost two plants; nice, clear yellow color.		

## 2008 Site Evaluations and Measurements-Dickinson, ND

Note-An \* preceding a cultivar measurement indicates good performance but lacking somewhat in size uniformity or bloom time; \*\* indicates a top performer with good bloom, vigor and uniformity; \*\*\* indicates outstanding performance. All measurements are in inches except where noted and ( ) indicates missing data. Seed/plant source list is on the last page of the report.

### Dickinson-2008

Genus species 'Cultivar'	Seed/Plant Source	July 9				September 4			
		Height	Spread	Comments	Height	Spread	Comments		
<i>Achillea ptarmica</i> 'Gypsy White'	Syn	1-2	2-3	No vigor or blooms; looks like it's being eaten by bunnies or gophers.	7-10	12-16	Not uniform in bloom.		
<i>Ageratum houstonianum</i> 'Patina Blue'	Syn	3-5	3-7	Not uniform in bloom or vigor.	**6-7	**11-13	Very good bloom.		
<i>Alcea rosea</i> (Hollyhock) 'Queeny Purple'	AAS '04	3-8	3-10	Not uniform in size and no blooms; critters eating?	9-28	11-18	Good but looks heat stressed; one really small plant.		
<i>Begonia benariensis</i> 'BIG Red Bronze Leaf'	Ben	*5-9	*5-9	Nice but not uniform in size.	*10-18	*10-17	Not uniform in height but good bloom.		
<i>Begonia benariensis</i> 'BIG Red Green Leaf'	Ben	**5-9	**7-9	Nice with good bloom and vigor.	**11-14	**12-13	Good bloom, vigor and uniformity.		
<i>Begonia benariensis</i> 'BIG Rose Bronze Leaf'	Ben	**8-10	**7-10	Nice with good bloom and vigor.	**14-17	**13-14	Nice!		
<i>Bidens pelti</i> 'Mexican Gold'	Syn	**6-8	**13-14	Good bloom and vigor.	**9-12	**25-27	Nice show of yellow.		
<i>Bracteantha bracteata</i> 'Strawburst Yellow'	Syn	**7-10	**8-11	Good bloom and vigor.	12-16	15-17	Outer petals are dark brown-why? Plants look healthy.		
<i>Calibrachoa x hybrida</i> 'Callie Coral Pink'	Syn	2-3	7-9	Yellowing foliage; no vigor.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Deep Yellow'	Syn	2-4	6-8	Poor; foliage very yellow.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Gold with Red Eye'	Syn	2-4	6-8	Yellowing foliage; no vigor.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Light Blue'	Syn	2-3	8-10	Foliage is also yellowing but not as bad as on some others.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Orange 08'	Syn	2-4	6-8	Poor; foliage very yellow.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Painted Coral'	Syn	4-6	7-10	Most vigorous <i>Calibrachoa</i> but there is some yellowing foliage.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Peach'	Syn	2-4	6-8	Very poor with very yellow foliage.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Purple 07'	Syn	2-3	10-12	Best of the group; no yellowing foliage and bloom alright.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Rose'	Syn	2-3	6-8	Not as much yellowing on this foliage.	---	---	Poor; most dead or dying.		
<i>Calibrachoa x hybrida</i> 'Callie Scarlet Red 08'	Syn	2-4	6-8	Very poor with very yellow foliage.	---	---	Poor; most dead or dying.		
<i>Capsicum annuum</i> (Ornamental Pepper) 'Black Pearl'	AAS '06	3-7	3-7	Only 3 plants here; not uniform in size and few blooms.	**17-21	**17-20	Good vigor and show.

<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Americana White 09'	Syn	6-8	7-9	Doing alright but others have more flowers and vigor.	5-10	9-13	One really small plant; otherwise they are doing alright.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Americana White Splash 09'	Syn	*6-7	*8-11	Pretty flowers.	7-10	13-15	Looks good.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Avenida Mosaic Red'	Syn	**7-10	**8-12	Good vigor and bloom.	*9-16	*13-20	Good vigor and bloom but not uniform in size.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Eclipse Dark Red'	Syn	*7-9	*7-10	Good bloom.	*9-14	*10-19	Good bloom but not uniform in size.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Eclipse Light Salmon II'	Syn	5-8	6-10	Not uniform in size but bloom alright.	9-13	10-13	Doing alright.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Eclipse Rose Mega Splash'	Syn	*5-6	*7-9	Showy flowers and bloom good.	7-10	8-12	Looks good.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Eclipse Velvet Red'	Syn	5-8	7-9	Bloom not as uniform or good as <i>Pelargonium 'Eclipse Rose Mega Splash'</i> .	**12-14	**14-16	Good vigor and bloom.		
<i>Pelargonium x hortorum</i> (Geranium-Exotic) 'Graffiti Double Red'	Syn	7-9	5-10	Not uniform in size or bloom.	**11-12	**14-16	Nice!		
<i>Pelargonium x hortorum</i> (Geranium-Exotic) 'Graffiti Double Salmon'	Syn	*8-10	*7-10	More bloom and vigor than <i>Pelargonium 'Graffiti Double Red'</i> .	**13-15	**18-20	A bit more vigorous than <i>Pelargonium 'Graffiti Double Red'</i> .		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Rocky Mountain Coral'	Syn	*6-8	*9-12	Vigor good; bloom good compared to some other geraniums.	9-13	13-18	Good vigor.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Rocky Mountain Dark Red'	Syn	*7-8	*10-12	Good vigor.	**9-13	**12-15	Good vigor and better bloom than <i>Pelargonium 'Rocky Mt. Coral'</i> .		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Rocky Mountain Deep Rose 09'	Syn	**6-8	**7-9	Uniform in size and good bloom.	10-12	12-15	Doing alright.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Rocky Mountain Magenta'	Syn	6-9	5-9	Not uniform in size but bloom alright.	9-11	11-13	Doing alright.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Rocky Mountain Salmon 08'	Syn	5-9	7-10	Not uniform in size or bloom time.	**13-15	**18-20	Good vigor and bloom.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Rocky Mountain Violet'	Syn	6-9	5-9	Not uniform in size but bloom alright.	9-13	8-13	Doing alright but one really small plant.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Tango Coral'	Syn	6-9	5-9	Not as uniform in size as <i>Pelargonium 'Tango Magenta'</i> or 'Tango White'.	9-13	10-12	Doing alright.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Tango Magenta'	Syn	**6-8	**6-8	Good bloom on small plants; uniform in size and bloom.	8-10	8-10	Small but uniform in size and bloom.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Tango Red 09'	Syn	5-8	7-9	Not as uniform in bloom as <i>Pelargonium 'Tango Magenta'</i> or 'Tango White'.	**9-11	**10-12	Most vigorous and floriferous 'Tango' geranium here.		
<i>Pelargonium x hortorum</i> (Geranium-Zonal) 'Tango White'	Syn	**5-7	**6-8	Good bloom on small plants; uniform in size and bloom.	7-10	9-12	Doing alright.

		Height	Spread	Comments		Height	Spread	Comments	
<i>Zinnia elegans</i> 'Magellan Coral'	AAS '05	7-8	7-8	Good vigor and size uniformity but just starting to bloom.		**11-13	**12-15	Looks good.	
<i>Zinnia elegans</i> 'Zowie! Yellow Flame'	AAS '06	*11-12	*8-9	Good vigor and size uniformity; just starting to bloom.		**18-22	**18-24	Nice!	
<i>Zinnia Marylandica</i> 'Zahara Coral Rose'	PAS	7-8	6-9	Fairly uniform in size but just starting to bloom.		**14-16	**17-22	Size a little less uniform here than in other 'Zahara' zinnias.	
<i>Zinnia Marylandica</i> 'Zahara Scarlet'	PAS	6-7	5-7	Good size uniformity; bloom alright.		**11-13	**17-18	Very nice!	
<i>Zinnia Marylandica</i> 'Zahara White'	PAS	7-8	7-9	Not much bloom yet but vigor good.		**14-15	**18-20	Nice!	
<i>Zinnia Marylandica</i> 'Zahara Yellow'	PAS	*6-8	*6-10	Nice, clear, yellow color; most bloom and vigor of the 'Zahara' zinnias.		**14-15	**20-22	Good vigor and bloom.	

## 2008 Site Evaluations and Measurements-Williston, ND

Note-An \* preceding a cultivar measurement indicates good performance but lacking somewhat in size uniformity or bloom time; \*\* indicates a top performer with good bloom, vigor and uniformity; \*\*\* indicates outstanding performance. All measurements are in inches except where noted and ( ) indicates missing data. Seed/plant source list is on the last page of the report.
