

NELD North Central

National Extension Leadership Development

Are Extension's future leaders prepared?

INVEST IN LEADERSHIP IN 2014

Participating in NELD, a leadership education program uniquely designed for Extension's emerging leaders, is a strategic investment in building future leaders who know themselves, who bring skills and capacity for leadership, who have a strong national network of colleagues, and who have taken a rigorous look at Extension in a time of local, national, and global change.

The mission of NELD is to build leaders in Cooperative Extension at all levels and provide them with the vision, courage, and tools to lead in a changing world. The 2014 program, managed by University of Minnesota Extension, will achieve that mission with curriculum focused on strengthening 11 leadership competencies using practical tools; national and international study; personal assessments, coaching and feedback; individual reflection; and, personal action plans. Webinars and on-line resources support participant learning and connections throughout the program.
