

# CORN ECONOMICS WORKSHOP 2017

## JANUARY 26<sup>TH</sup> & 27<sup>TH</sup>

North Dakota State University's Corn Economics Workshop is a one-day program that will help farmers make corn production and marketing decisions in 2017. The program will integrate production, logistics, economics, and other risk considerations.

The program is delivered by Frayne Olson, Crops Economist, and David Ripplinger, Bioenergy Specialist, NDSU Extension Service.

*Registration is free, but preregistration is required.*

Support provided by the North Dakota Corn Utilization Council and the North Dakota Ethanol Council is greatly appreciated.

HOW MUCH CORN  
SHOULD YOU GROW IN  
2017?

HOW SHOULD YOU  
MARKET IT?

A PROGRAM FOR  
NORTH DAKOTA  
COMMERCIAL FARMERS

10AM – 3 PM EACH DAY  
REFRESHMENTS & LUNCH  
PROVIDED
