Type: H=hybrid, OP=open pollinated, SYN=synthetic

Blackleg: R=resistant, MR=moderately resistant, UNK=unknown

DAP=Days after planting

Blackleg rating provided by company

In June heavy rainfall caused ponding water in replicate 2. This replicate was eliminated from the analysis

Hot conditions during flowering may have influenced some varieties more than others

Because of the magnitude of environmental influences, it is recommended that multiple year data (if available) and data from various variety trial locations be reviewed
