1. Briefly describe your garden project including its major goals. Please include a description of activities. (150 words or less)

We plan to build or purchase 2 large raised garden beds to place outside of the Care Center. We then plan to purchase plants and/or seeds to plant in the beds. We plan on having the resident's help plant and care for the gardens.

2. How will your project make a difference to its children? (150 words or less)

This project will teach the children about caring for a garden. We plan to visit the nursery in town to learn about plants that will do well in a raised garden bed.

This project will bring the residents and children together to work on the project and hopefully improve the quality of life for the residents now and into the future.

Please describe your Extension office's involvement in this garden program (recruiting youth, teaching, coordinating volunteers, providing meeting space). (150 words or less)

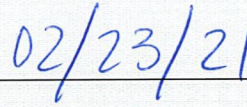

I will assist the Das Leipzig Kinder 4-H club by providing materials if needed from the Extension office as well as answering any questions that may arise or education if needed. I will volunteer my time to visit the project and help to provide direction if needed. Essentially, I will be a resource to the 4-H club to assist in whatever capacity is needed.

I support this project and will work with the coordinator to ensure a positive educational experience for the youth.
