Goal
Recognize leadership characteristics that help move a group to action

Supplies needed (for each team)
- Roll of string
- Marker
- Tape
- Poster board or flip chart paper

The group leader will describe the instructions on this page to his/her team members. The group leader is the only one who gets the handout. Everyone else on the team must follow the leader’s instructions. Each team has 20 minutes to complete all of the tasks.

Tasks
1. Lay one piece of flip chart paper or poster board on the table. Tape down on the edges.
2. Everyone must participate in the drawing and building.
3. You will be drawing a smiley face as a team on the paper with your marker suspended over the page with string. Using the string, fashion a device that will allow you to suspend the marker into a circle. Lengths of string that each member will hold onto must be at least 1 foot from the marker.
4. Working together, draw a picture of a smiley face on the poster board using the marker (10 points for the team if completed in the time allowed).
5. The face, eyes and mouth are the basics that must be drawn next (5 points for each item drawn in the time allowed).
6. Any additional features on the face such as hair, nose, ears, hats or jewelry are a bonus. (25 points awarded for each additional feature in the time allowed).
7. No one can move the poster board from the middle of the circle. You may not remove the circle from the table. No creative cheating, please.
8. Share your team drawing when the 20 minutes are up. Count up the points for your team based on the instructions for the activity.
