

Sources and Prices for selected Co-products produced in North Dakota

As of November 1, 2019

Commentary – spot Corn Prices, \$ per bushel

3.40	Blue Flint Ethanol, Underwood
3.40	Red Trail Energy, Richardton
3.61	Tharaldson Ethanol, Casselton
3.55	Hankinson Renewable Energy, Hankinson
3.35	Dakota Spirit AgEnergy, Spiritwood

Co product prices reflect corn prices. Slightly higher than previous coproduct report. Wheat midds availability is tight. Distiller grains are usually available. Beet tailings availability will be come very limited once the beet tailings/potato waste ethanol plant comes online in January 2020. Beet pulp is available but supply is mostly reserved by past users/haulers.
