E-Mail: Rhonda.schell@ndsu.edu

<u>BARE ROOT – HARDWOODS</u>	<u>TOP HEIGHT</u>	<u>PRICE</u>
American Plum (1-0)	12-18”	.85
Caragana (2-0)	15-18”	.85

As many of you are aware, our stock inventories are below normal for 2023 and 2024. A harsh open winter destroyed the majority of our seedbeds resulting in low inventories for those respective tree planting seasons. We have taken measures to hold over some stock, have custom stock grown with our acclimated seed sources, and have double graded stock to increase numbers. We expect a return to more normal stock inventories in 2024 and surplus stock inventories in 2025.

We appreciate your understanding as we navigate these unanticipated challenges.

If the species you are looking for is not on the availability list, please contact Rhonda to be added to the wait list. Depending on field inventories and order cancellations, we may be able to fill your order closer to planting season.
