North Dakota Statewide Windbreak Renovation Initiative Grant Program

2018 Program Overview

PURPOSE
Windbreak Renovation Grant Program will provide financial assistance to private landowners to restore, protect and enhance their planted forest.

ELIGIBILITY
An assessment of existing forest resources and Renovation Plan are required. Plan practices eligible for financial assistance may include:

- Coppicing
- Thinning
- Row removal
- Tree/shrub pruning
- Site preparation
- Tree/shrub machine-planting
- Tree/shrub hand-planting
- Weed barrier installation
- Chemical or mechanical weed control
- Tree tubes
- Exclusion fencing for wildlife or livestock
- Erosion control measures
- Herbaceous seeding between rows

FUNDS AVAILABILITY
Grant Funds will be distributed to the landowner on a reimbursement basis. Reimbursement (cost-share) will be 50% of the actual cost of project implementation including all credits, in-kind and cash. Documentation of inspection of the completed project by the North Dakota Forest Service or authorized representative and documentation of qualified cash expenditures must be submitted for reimbursement. Restoration practices undertaken directly by the landowner are not reimbursable but may be used as in-kind match. Reimbursement is limited to the total qualified cash expenditures up to a maximum of $10,000.

DEADLINE
Grant applications are accepted on a continuous basis. There are no deadlines for submitting an application. However, grant applications must be submitted far enough in advance to allow a realistic schedule for the completion of proposed project activities. Site assessments and plans required for submitting an application are offered on a seasonal basis, so landowners are encouraged to contact a North Dakota Forest Service staff member early.

PROJECT COMPLETION
On or before December 31, 2020.
