

York

Flax

NDSU NORTH DAKOTA STATE UNIVERSITY

Characteristics

Yield	high
Seed Color	brown
Height	medium
Maturity	late
Rust	R ¹
Wilt	MR/R ¹

¹R = resistant; MR = moderately resistant; MS = moderately susceptible

Comments

York flax was released in 2002. This variety is a full season high yielding flax. York has blue flowers, medium height, and larger than average brown seed size. It is resistant to flax rust and has good tolerance to flax wilt. York was named after the town of York, ND in Benson County.

Strengths

- High yield
- Late maturity

Agronomic Performance of York Across ND & SD, 2008-2014

	York	Gold ND	Carter	Omega
Yield (bu/a)	22.6	22.7	22.3	20.5
Test wt. (lb/bu)	52.9	52.9	53.0	52.9
Height (inches)	29.6	31.8	30.0	29.3
Oil Content (%)	39.0	40.5	39.8	40.0
Maturity (days to first flower)	49.2	51.0	49.8	49.2
