Cibus SU Canola Field Research Assistant Intern

Location: Bismarck, North Dakota
Duration: Summer May 14th – August 17th, 2018
Reports To: Research Agronomist
Required Education: High School Diploma/ working toward an Agricultural Bachelor of Science four-year undergraduate degree

Job Description:

Cibus needs a highly motivated summer intern to help with their 2018 field research. The intern will assist the research agronomist in all aspects of the 2018 plot program including, but not limited too; trial set-up, plot spraying, monitoring, plot maintenance, data collection, data entry, and field scouting. This position will also require travel to remote trial locations and 3rd party research stations to monitor and make observations. Interns will maintain a flexible work schedule to assist in these responsibilities when weather permits.

Individual Requirements:

Valid Driver’s License
Ability to communicate with cell phone, computer and written reports
Passport desirable for potential assistance to Cibus Canadian team
Ability to work independently

Pay: $15/hr

Intern will need ½ ton pick-up to do the type of field and plot work expected of them. A short-term vehicle rental agreement will be required of Cibus.
