NDSU Extension Plant Pathology

Undergraduate Research Assistant(s)

The NDSU Extension Plant Pathology team is looking for motivated individuals to help assist in daily small plot field research activities on campus and surrounding areas. Individuals will gain valuable training in pest identification, experimental design, operation of small-plot equipment and collaborative work.

Full-time summer employment starting May 15th with possibility of part-time employment continuing into the fall months. Pay will commensurate with experience. Application deadline is April 15, 2017.

For more information, interested individuals should contact:

NDSU EXTENSION ENTOMOLOGY
UNDERGRADUATE RESEARCH ASSISTANT
NDSU CAMPUS, FARGO

The NDSU Extension Entomology team is looking for individuals to assist with their entomological field plot research trials. Applicants will gain valuable experience on:

- How to identify insect pests and beneficial insects,
- How to count and record insect data,
- How to monitor insect traps and
- How to setup experimental plot design.

Field equipment and state vehicles are provided when traveling. Applicants must have a valid driver’s license and be able to work independently. Salary will start at $10.00-13.00 per hour and up depending on experience. Application deadline is April 30, 2017.

Please contact Pat Beazay at 701-231-7064 (patrick.beauzay@ndsu.edu) for more information.
