Active Parenting of Teens (parents only) – gives parents of teenagers a chance to discuss topics such as methods of respectful discipline and how to develop skills for clear, honest communication. The program addresses: teen brain development, parenting styles, communication, problem solving, responsibility, self-esteem, teen behavior goals, high-risk behaviors, alcohol, drugs, sexuality and violence.
- Active Parenting of Teens (parents/young adults)

Active Parenting, 5 to 12 years – for parents and caregivers of 5- to 12-year-olds to learn active parenting vs. reactive parenting. Addresses situations and challenges that are expected when parenting this age group.

Parenting Wisely: Young Children and Teens – designed for at-risk families with children from early elementary to high school age. Nine video vignettes are used to overcome illiteracy barriers and assist parents in following a self-paced, self-guided approach to learning parenting confidence and skills. Communication skills, problem-solving skills, speaking respectfully, assertive discipline, reinforcement, homework compliance, chore compliance, supervision of children, stepfamily and single parent issues are all addressed.

Active Parenting of Stepfamilies – discussion and video-based program for learning the skills and techniques helpful for successfully building and nurturing a blended family

Parents Forever – puts parents on the path to minimizing stress for themselves and their children. Participants learn how to make informed, child-supportive decisions so children will come through separation or divorce having a positive relationship with both parents vs. feeling caught in the middle of their parents’ conflict.

Cooperative Parenting and Divorce – addresses the parenting issues created because of divorce/separation

Crossroads of Parenting and Divorce – provides parents with the skills and insight on how to respond to divorce when children are involved
 ● Common Sense Parenting – parent education course designed for parents of toddlers and preschoolers or children ages 6 to 16 and/or children with ADHD addressing communication, discipline, decision making, relationships and school success issues

 ● Conscious Discipline – series of classes providing parents/caregivers with the tools to turn conflict into cooperation and avoid teaching the behaviors they want to prevent

 ● Nurturing Parenting Programs (multiple versions) – a series of programs designed for use in reducing child abuse and neglect or risks for such behavior. Primarily designed for high-risk families and families experiencing child abuse and neglect or in the child welfare system.
   - Nurturing Parenting – Community Based
   - Nurturing Parenting – Military

 ● How Much is Enough? – four-week series designed to help parents see the difference between spoiling and overindulging versus healthy, loving and appropriate care. Lessons focus on helping parents foster independence, empathy and compassion, and self-control in their children.

 ● Nurtured Heart Approach – focuses on effective parenting techniques that address difficult and intense child behaviors

 ● Positive Native American Parenting – parenting curriculum designed to provide a brief, practical and culturally specific training program for parents. The goal is to help Native American parents explore values and attitudes expressed in traditional child-rearing practices, appreciate the lessons obtained from certain universal, historical ways such as storytelling, extended family, etc. and apply those values to modern skills in parenting.

 ● The Incredible Years (BASIC Parent Training Program) – three-part series designed to promote emotional and social competence, and prevent, reduce and treat behavior and emotional problems in young children

 ● 1, 2, 3 Magic – offers easy-to-follow steps for disciplining children without arguing or yelling. These classes help parents avoid overexplaining, maintain control, avoid misbehavior in public and help their children make positive choices.

 ● Parenting the Second Time Around (PASTA) – meets the needs of grandparents, relatives and other nonparental caregivers who are parenting related (or nonrelated) children. Topics include child and adolescent development, discipline and guidance, acknowledgement of ambivalent feelings, rebuilding a family, living with teens, legal issues and advocacy.

 ● Strengthening Parent-Teen Relationships in a Wireless World – helps parents connect with their teens, examine their rules and expectations, create a plan for digital media, and critique how the use of technology is working for and against their family relationships

 ● Monitoring Your Teen’s Activities – what parents and families should know about their teens’ activities and behavior
