How to Plan Healthy, Economical Menus

- Set a goal to plan daily menus for a week at a time. It will save time in the long run. Have family members help in the planning. Save your menu plans and reuse them.
- Plan your menu based on what's on sale at your local grocery store. Fruits and vegetables that are "in season" usually are less expensive and of better quality.
- Include a variety of colors and flavors in menus. Serving colorful carrots, sweet potatoes, corn or green beans as a side dish adds nutrition and makes a meal look more appealing.
- Vary the textures of meals. If you serve a meat such as roast beef or chicken, accompany it with soft mashed potatoes and a crisp vegetable salad. Serve crusty breads beside casseroles, stews and soups.
- Remember to serve "hot" food hot and "cold" food cold!
- Try to fit in at least three whole-grain foods every day. Try whole-grain cereal for breakfast, a sandwich on whole-grain bread for lunch, or a whole-wheat pasta dish for dinner.
- When you add a "new recipe" to your menu, pair it with a recipe your family has tried and liked!

- Serve low-fat milk with meals to help your family meet its calcium needs. Most people need at least three cups of milk per day.
- Share kitchen duties with others in the household. If you prepare the main entrée, have someone else make the side dishes, salad or dessert. Children can learn many skills by helping in the kitchen.
- Think of leftovers as “planned-overs.” Use “planned-overs” to save time in the future.

For example, make extra portions of meat and freeze them in recipe-size portions. Make a double batch of lasagna and freeze one for later. Have extra roast? Chop it up, add barbeque sauce and place it on a bun for a quick lunch or dinner the next day.

Four Steps to Food Safety

Clean

- Wash your hands with warm, soapy water for at least 20 seconds before preparing food and after using the bathroom, changing diapers and handling pets.
- Wash counter surfaces, utensils, dishes and cutting boards with hot, soapy water before preparing food.
- Paper towels work well for cleaning kitchen surfaces. Cloth towels can spread bacteria and should be washed frequently.

Separate

- Keep raw meat, poultry and seafood away from other foods while shopping and in the refrigerator. The juices could drip and spread bacteria.
- Use different cutting boards when preparing food, one for raw meat and one for ready-to-eat foods.
- Don't allow cooked or ready-to-eat foods to come in contact with raw meats.

Cook

- Use a thermometer to measure the internal temperature of cooked foods to make sure they reach a safe temperature.
- If using a microwave oven, take some food safety precautions. Use microwave-safe containers. For even cooking, cover the food, rotate and stir the contents to prevent hot and cold spots. Allow microwave-cooked food to stand about two minutes before serving.

Chill

- Refrigerate foods within two hours of preparation.
- Do not defrost foods at room temperature. Foods should be thawed in the refrigerator, under cold running water, as part of cooking or in the microwave. Microwave-thawed food should be cooked immediately.
- To chill foods quickly, store leftovers in shallow containers.
- Cool air must circulate in the refrigerator. Do not pack it too full; monitor the temperature with a refrigerator thermometer.

How to Use a Food Thermometer

Why use a food thermometer?

- Cooking by color can be misleading.
- One in every four hamburgers turns brown before it has reached a safe internal temperature.
- Using a food thermometer can prevent overcooking.

Why is using a food thermometer important?

- Millions of people get sick from dangerous bacteria in food every year.
- Public health data in 2000 show that our food has more than five times the number of dangerous bacteria than we were aware of in 1942.
- You can become sick from 20 minutes to six weeks after eating food with some types of harmful bacteria.
- Young children, pregnant women, people over age 65 and people with chronic illnesses are at a high risk for foodborne illness. Getting sick from a foodborne illness can cause serious health problems, even death, for these groups.
- The only sure way to know if your food is done is to use a food thermometer.

How do you use a food thermometer?

- When measuring the temperature of a roast or chicken, insert the food thermometer in the thickest part away from bones.
- To measure the temperature of soups, stews and casseroles, insert the food thermometer in the center away from the bottom.

Some thermometers can be left in the meat during the cooking process. Before using a thermometer in this way, be sure your thermometer is oven-safe!

How to Cook and Bake with Less Fat

- Use low-fat or no-fat dressings, dairy products, etc., when possible.
- Use nonstick cooking spray to grease pans.
- Bake, broil, boil, steam or grill meats.
- Substitute applesauce for oil in your favorite baked products. Most cakes can be substituted one for one. For cookies and bars, substitute applesauce for half the fat.
- Don't use reduced-fat margarines in cookie recipes unless the recipe calls for reduced-fat margarine. Cookies made with the wrong type of fat may spread across the pan and have a different texture than you may want.
- Choose canned fruits packed in their natural juices.
- Buy tuna packed in spring water instead of oil.

How to Cook Dry Edible Beans

- Rinse, soak and simmer dry beans for delicious results.
- First, inspect the dry beans, removing any broken beans or foreign materials. Rinse thoroughly in cold water.
- Next, use the "Preferred Hot Soak" method: Add 10 cups of cold water to the pot for each pound (2 cups) of beans prepared. Bring the water to a boil and boil for one to three minutes. Cover the pot. Let stand. A four-hour soak is ideal.
- Finally, drain and rinse soaked beans. Add fresh, cold water to fully cover beans – plus, if you wish, 1 to 2

tablespoons of oil and 1 to 2 teaspoons of salt. Simmer the beans until they are tender. Serve them plain or follow a favorite recipe for a dish your family will love.

- Add ingredients rich in acid or calcium such as tomatoes, chili sauce, ketchup, vinegar, wine and molasses after the beans have been soaked and fully cooked. If you add these ingredients too soon, they may prevent dry beans from becoming tender.
 - **2 cups of dry beans = 4 to 5 cups of cooked beans**

How to Cook Pasta

Divide this recipe based on how much pasta you are cooking.

1. Boil 4 to 6 quarts of water for 1 pound of dry pasta. Add the pasta, stir and return the water to a boil.
2. Stir the pasta occasionally during cooking.
3. Follow the package directions for cooking times. If you plan to use the pasta as part of a dish that requires further cooking, undercook the pasta by one-third of the cooking time specified on the package.
4. Taste the pasta to determine if it is done. Perfectly cooked pasta should be "al dente," or firm to the bite, yet cooked through.
5. Drain pasta immediately. Serve.

How to Cook Rice

1. Accurately measure rice and liquid according to package directions.
2. To prevent under- or overcooking, set the timer according to package directions.
3. Keep the lid on the pot during cooking to prevent steam from escaping.
4. Use cookware appropriate for the amount of rice you are preparing. Rice triples in volume.
5. Do not stir. Stirring releases the starch, resulting in rice that is sticky.
6. At the end of the cooking time, remove the lid and test for doneness. If the rice is not tender or the liquid is not absorbed, cook two to four minutes longer.
7. When the rice is cooked, fluff with a fork or slotted spoon to allow steam to escape and keep the grains separate.
 - **1 cup of raw rice = 3 cups of cooked rice**

How to Cook with Venison

- You can substitute venison for beef in most recipes. Venison works great in stews and casseroles. You also can marinate and grill it for a summertime barbecue.

- Thaw meats in the refrigerator, or in the microwave for immediate use.
- Use the same amount of meat the recipe calls for and add 1 to 2 tablespoons of cooking oil when browning the venison. Venison has less fat than beef and can dry out or stick together when it is cooking.
- Add spices or marinades to the meat if desired. This can help reduce some of the gamey flavor.
- Cook game meats to an internal temperature of at least 165 F.

How to Use Dried Cranberries

- Enjoy dried cranberries as a quick and easy snack or an addition to baked goods or salads. They contain no fat, no cholesterol and no sodium.
- Package in individual portion sizes for school snacks.
- Use as a tasty addition to trail mix, quick breads, muffins, desserts, sauces, salsa and salads.
- Sprinkle dried cranberries over cold or cooked cereals. You also can cook dried cranberries in the cereal.
- Add to chopped chicken or turkey salads.
- Store unopened dried cranberries in a cool, dry place off the floor not exceeding 65 F. You can extend the shelf life if you store them below 45 F.

continued

How to Use Dry Milk

- You easily can substitute dry milk for regular milk in many recipes. Dry milk can add protein and calcium to recipes.
- To rehydrate dry milk, follow package directions and measure water and dry milk carefully.
- Try substituting reconstituted dry milk for water when making hot cereal, hot chocolate, chocolate milk, milk shakes, puddings, cream soups or white sauces.
- Add dry milk to casseroles, cake batter, mashed potatoes, scrambled eggs, cookies or cornbread.
- When traveling, consider bringing dry milk. It's easy to bring dry milk on camping or backpacking trips, too!

Baked Chicken Nuggets

Ingredients

- 1½ lb. chicken thighs
- 1 c. cornflakes or other ready-to-eat cereal crumbs
- 1 tsp. paprika
- ½ tsp. Italian herb seasoning or seasoning of your choice
- ¼ tsp. garlic powder
- ¼ tsp. onion powder

Directions

1. Preheat oven to 400 F.
2. Remove chicken skin and bones; cut the chicken into bite-sized pieces.
3. Place cereal in a plastic bag and crush using a rolling pin or can.
4. Add remaining ingredients to cereal crumbs. Close bag tightly and shake until blended.
5. Add a few chicken pieces at a time to crumb mixture and shake to coat evenly. Discard any unused crumb mixture.
6. Place chicken pieces on greased cooking sheet so they are not touching.
7. Bake until golden brown with internal temperature of 165 F, about 12 to 14 minutes.

Whole poultry and poultry parts should be cooked to an internal temperature of 165 F. Insert a food thermometer into the thickest part of the meat to measure the temperature. Measure in more than one spot!

Basic Casserole Mix

Ingredients

- 1½ c. cooked meat, poultry or fish
- 1 c. cooked vegetable of choice
- 1 c. starchy ingredient such as cooked cubed potatoes, cooked rice, cooked noodles or stuffing mix
- 2 to 2½ c. gravy, medium white sauce, tomato sauce or reduced-fat canned cream soup, thinned with skim or low-fat milk
- Optional toppings: ½ c. bread or cracker crumbs

Directions

1. Preheat oven to 350 F.
2. Put together the casserole in one of the following ways:
 - a. Mix everything together except topping.
 - b. Alternate layers of meat, vegetables, starchy ingredient and sauce, ending with sauce.
 - c. Mix meat, vegetables and starchy ingredients. Pour sauce on top.
3. Sprinkle the bread or cracker crumbs on top, if desired.
4. Bake about 25 to 30 minutes. Always heat casseroles to at least 165 F and only reheat once.

Makes four servings.

Nutrition information varies depending on choice of ingredients.

Refrigerate leftovers in shallow containers. Use within three days. Freeze in meal-size portions for longer storage.

Vegetarian Taco Burgers

Ingredients

- 2 c. cooked or canned pinto beans
- 1 egg, beaten
- ½ c. bread crumbs, fine and dry
- 1 Tbsp. vegetable oil
- 1 tsp. chili powder
- ¼ tsp. garlic powder
- 4 hamburger buns

Beans are a good source of fiber. Fiber has been shown to reduce the risk of heart disease, diabetes and some cancers.

Directions

1. Mash beans; mix with egg in the mixing bowl; add spices.
2. Place bread crumbs on a flat surface (such as a plate).
3. Shape bean/egg mixture into patties and coat with bread crumbs.
4. Heat oil in the frying pan and brown patties on both sides.
5. Place cooked patties on paper towels or napkins to absorb excess oil.
6. Top with cheese, lettuce and salsa and serve on a hamburger bun.

Tuna Salsa Wraps

Ingredients

- 1 (7-oz.) can tuna, drained and flaked
- ¼ c. light mayonnaise
- 1 tsp. yellow mustard
- ½ c. salsa
- ¼ c. shredded carrots
- 6 large corn or flour tortillas
- 1½ c. shredded lettuce
- ¾ c. mild shredded cheddar cheese

Directions

1. Warm tortillas according to package instructions.
2. In a small bowl, combine the first five ingredients in the order given. Mix well.
3. Place tortilla on a cutting board or other surface.
4. In the center of the tortilla, place an equal portion of shredded lettuce and tuna mixture.
5. Top with a pinch of cheese.
6. Fold in one end and tightly roll the tortilla over the ingredients.
7. Place in baking pan and warm in oven until cheese is slightly melted.

“Go lean with protein.”
Tuna packed in spring water is a lean source of protein.

Creamed Tuna or Salmon on Toast

Ingredients

- 2 Tbsp. margarine, melted
- 3 Tbsp. flour
- 2 tsp. salt
- ¼ tsp. pepper
- 2 c. low-fat milk or dry milk equivalent
- 1 carrot, sliced
- 1 stalk of celery, sliced
- 1 c. peas
- 1 (7-oz.) can tuna (or salmon), drained
- 8 slices bread for toast

Day-old bread from the grocery store or bakery costs less and is good for toast, bread crumbs and stuffing.

Directions

1. Wash and slice carrot and celery. Cook them in a saucepan with 2 c. water until soft. Drain and set aside in a small bowl.
2. In the same saucepan, melt margarine. Add the flour, salt and pepper and stir until it looks like paste.
3. Add the milk and stir while it cooks until the sauce gets thicker. Do not boil.
4. Add the carrots, celery, peas and tuna (or salmon).
5. Stir and cook until the mixture is hot.
6. Make toast and serve the creamed tuna (or salmon) over it. You also can serve it over biscuits or noodles.

Easy Supper Casserole

Ingredients

- 2 lb. lean ground beef
- 1 onion, chopped
- 1 c. dry macaroni
- 2 c. tomato juice
- 1 (15.5-oz.) can chili beans
- 1 tsp. oregano, crushed
- 2 tsp. chili powder
- 2 tsp. salt
- ¼ tsp. pepper
- 1 c. grated cheddar cheese

Directions

1. Brown ground beef in a large frying pan or electric skillet; drain fat.
2. Add chopped onion to ground beef; cook until onion is clear.
3. Turn heat down; add macaroni, beans, juice and spices, stirring to combine.
4. Cover pan and simmer mixture for 20 minutes. (If you uncover the pan more than twice to check and stir, add additional tomato juice).
5. Remove pan from heat, stir and sprinkle grated cheese on top of mixture. Cover and let stand until cheese melts.

Chill food as quickly as possible.

Easy Turkey or Chicken Pot Pie

Ingredients

- 1 c. cut up cooked turkey or chicken
- 1 (16-oz.) bag frozen vegetables, thawed
- 1 (10.75-oz.) can reduced-fat condensed cream of chicken soup
- 1 c. biscuit mix (such as Bisquick)
- ½ c. low-fat milk or dry milk equivalent
- 1 egg

Directions

1. Preheat oven to 400 F.
2. Stir turkey or chicken, vegetables and soup in an ungreased 2-quart casserole dish.
3. Stir the remaining ingredients until blended.
4. Pour over the turkey or chicken mixture.
5. Bake uncovered about 30 minutes to an internal temperature of 165 F, until the crust is golden brown.

Makes six servings

Per serving: 215 calories, 27g carbohydrate, 5g fat, 3g fiber and 415mg sodium.

Choose lean protein sources such as turkey, chicken, fish and lean cuts of pork and beef. Remember to trim all visible fat and remove the skin from chicken and turkey before cooking.

One-pan Macaroni and Cheese

Ingredients

- 1½ c. dry macaroni
- ⅔ c. warm water
- 1 c. nonfat dry milk powder
- 2 c. frozen mixed vegetables
- 8-oz. American (or other) cheese, diced
- Pepper to taste

Directions

1. Cook macaroni in the saucepan according to package directions; drain. Return macaroni to saucepan.
2. Mix warm water with dry milk powder in a mixing bowl.
3. Add milk and cooked vegetables to the macaroni.
4. Cut cheese into small pieces.
5. Add cheese to macaroni. Cook and stir gently until cheese melts. Let stand a few minutes after cooking for thicker sauce. For thinner sauce, add a little water.
6. Add pepper to taste.

Quick Taco-Mac

Ingredients

- 1 lb. ground turkey or ground beef
- 1 packet taco seasoning
- 1 (14.5-oz.) can whole tomatoes, undrained,
OR 1 (15-oz.) can tomato sauce
- 1 c. water
- 1 (7.25-oz.) box macaroni and cheese

Directions

1. In medium skillet, brown ground meat until crumbly. Drain fat.
2. If using canned whole tomatoes, cut or break up the tomatoes.
3. Stir in rest of ingredients, including the cheese packet from the macaroni and cheese.
4. Bring to a boil; reduce heat, cover and simmer 20 minutes.
5. Sprinkle with cheddar cheese, if desired.

Creamy Tuna Noodle Casserole

Ingredients

- 2 c. dry noodles
- 1/3 c. onion, chopped
- 2/3 c. celery, chopped
- 1 (7-oz.) can tuna, drained and flaked
- 1 (10-oz.) can reduced-fat condensed cream of mushroom soup
- 1 (6-oz.) can nonfat evaporated milk
- 2/3 c. crushed potato chips (optional)

Directions

1. Preheat oven to 375 F. Spray or grease casserole baking dish.
2. Cook noodles according to package directions.
3. Sauté celery and onions, stirring occasionally until tender.
4. Combine noodles, tuna, soup, sautéed vegetables and evaporated milk. Mix well.
5. Pour into prepared casserole dish and sprinkle with potato chips.
6. Bake for 25 or 30 minutes or until chips are golden brown. Double the recipe and freeze one for later.

Label canned goods with the date of purchase.

Rotate the food in your cupboard so the “oldest” cans are in the front and you use them first.

Salmon Casserole

Ingredients

- 2 c. dry pasta
- 1/2 c. low-fat mayonnaise or salad dressing
- 1/2 c. milk
- 1 (10-oz.) can reduced-fat condensed cream of mushroom soup
- 1 c. shredded, processed cheese (American or Monterrey Jack)
- 1/2 tsp. seasoning (dry mustard, dill weed or curry powder)
- 1 (7-oz.) can salmon, tuna, shrimp or crab, drained and flaked

You cannot prevent food spoilage, but you can slow it with proper storage temperatures. Refrigerators should be 40 F or less and freezers should be 0 F or less.

Directions

1. Cook pasta according to package directions. Drain and set aside.
2. Combine mayonnaise with milk. Stir in condensed cream soup. Add shredded cheese and seasoning.
3. Gently stir in cooked pasta and canned fish. Pour into 1 1/2-quart casserole baking dish.
4. Cover and bake in 350-degree oven for 30 minutes.
5. Uncover and sprinkle with a crunchy topping (crushed potato chips, cracker crumbs, french fried onions). Bake five more minutes.

Ramen Noodle Casserole

Ingredients

- 2 pkg. ramen noodles (any flavor)
Do not add flavor packet to recipe
- 1 can reduced-fat cream soup (any kind)
- 1 can green beans or peas, undrained
- 1 lb. cooked lean ground beef, diced ham or other meat

Directions

1. If using meat that needs to be cooked, do so in a large skillet; drain fat.
2. Stir soup and undrained green beans or peas into the meat.
3. Break up the ramen noodles and stir into the soup mixture.
4. Cover and simmer at a low boil until noodles are done, about 10 minutes.

Tuna Melt Macaroni Casserole

Ingredients

- 2 c. macaroni, uncooked
- $\frac{3}{4}$ c. shredded cheddar cheese
- $\frac{1}{3}$ c. skim milk
- 1 (7-oz.) can of tuna
- 1 c. frozen peas

Directions:

1. Preheat oven to 350 F.
2. Prepare macaroni according to package directions.
Reduce cooking time by about one-third because this will be baked.
3. Stir in peas and cook for a few minutes until soft.
4. Add two-thirds of cheese, all the milk and tuna.
5. Pour into casserole dish. Sprinkle with remaining cheese.
6. Bake for 20 or 25 minutes until casserole reaches an internal temperature of 165 F.

Makes six servings

Per serving: 248 calories, 31g carbohydrate, 6g fat, 2g fiber and 239mg sodium

Taco Meatballs

Ingredients:

- 1 lb. lean ground beef or ground turkey
- 1 packet taco seasoning
- ½ c. water
- 1 c. shredded cheddar cheese
- 2 c. biscuit baking mix (such as Bisquick)
- 1 c. taco sauce

Directions:

1. Preheat oven to 350 F.
2. Combine all ingredients except cheese and taco sauce. Shape into 20 balls.
3. Pour taco sauce over meatballs and sprinkle with cheese.
4. Bake on greased 9-by-13-inch baking dish until meatballs reach an internal temperature of 160 F, about 25 to 30 minutes.

Makes 10 servings

Per serving: 216 calories, 23g carbohydrate, 6g fat, 2.5g fiber and 604mg sodium

Venison or Beef Chili

Ingredients

- 2 lb. ground venison or beef, browned
- 1 medium onion, diced
- ½ green pepper, diced
- 2 (15-oz.) cans chili or kidney beans (may substitute dry beans, refer to “How to Cook Dry Edible Beans”)
- 1 (15-oz.) can tomato sauce
- 1 (15-oz.) can diced tomatoes
- 1½ c. water
- 1 packet chili seasoning (cumin and chili powder may be substituted)

Directions

1. Brown the meat with diced onion and green pepper.
2. Drain.
3. Add remaining ingredients and simmer for one hour.
