

Entomology Workshop

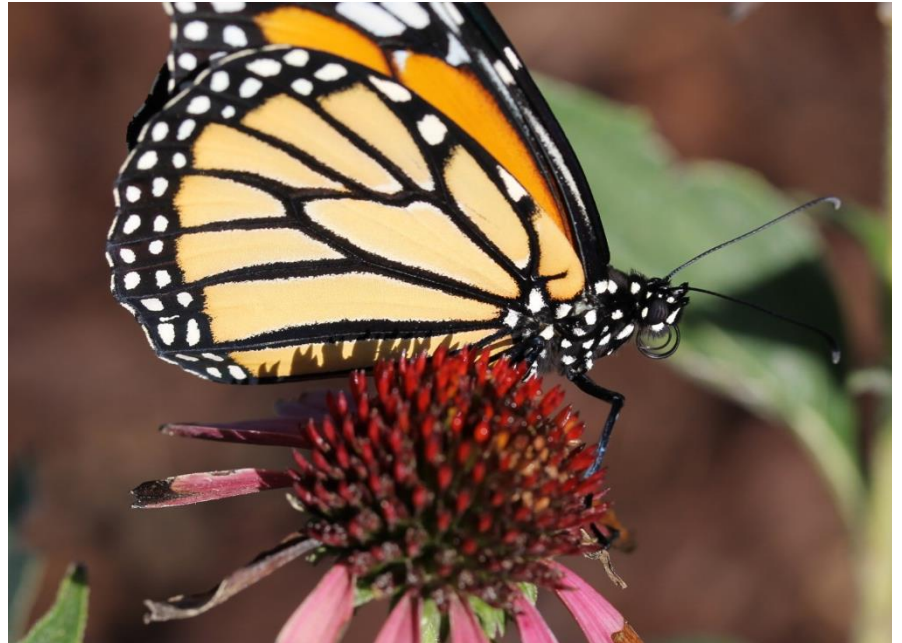

Learn how to:

Identify insects to order.

Pin and preserve insects.

Learn how to collect insects.

Learn why insects are cool.

This workshop is designed to introduce youth to the world of entomology, insect, spiders and their kin. Youth will be able to pin and label the insects. Learn the about the taxonomy and morphology of insects and learn about the Orders of insects.

Instructor is Michael Eskelson, a native of Enderlin that is now an Extension Educator in Nebraska. He has 16 years of entomology experience, Master's degree in Entomology from the University of Kentucky.
