Business Leadership

“Blink”
Author: Malcolm Gladwell
Blink is a book about how we think without thinking, about choices that seem to be made in an instant—in the blink of an eye—that actually aren’t as simple as they seem. Blink reveals that great decision makers aren’t those who process the most information or spend the most time deliberating, but those who have perfected the art of “thin-slicing”—filtering the very few factors that matter from an overwhelming number of variables.

“Built to Last: Successful Habits of Visionary Companies”
Author: Jim Collins and Jerry I. Porras
Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels, Built to Last provides a master blueprint for building organizations that will prosper long into the twenty-first century and beyond.

“Getting to Yes: Negotiating Agreement without Giving In”
Author: Roger Fisher
Getting to Yes offers a proven, step-by-step strategy for coming to mutually acceptable agreements in every sort of conflict. Thoroughly updated and revised, it offers readers a straightforward, universally applicable method for negotiating personal and professional disputes without getting angry— or getting taken.

“Good to Great: Why Some Companies Make the Leap and Others Don’t”
Author: Jim Collins
Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning.

“Grit: The Power of Passion and Perseverance”
Author: Angela Duckworth
Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” Among Grit’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success”
“How to Lead When You’re Not in Charge”
Author: Clay Scroggins and Andy Stanley
One of the greatest myths of leadership is that you must be in charge in order to lead. Great leaders don’t buy it. Great leaders lead with or without the authority and learn to unleash their influence wherever they are.
With practical wisdom and humor, Clay Scroggins will help you nurture your vision and cultivate influence, even when you lack authority in your organization. And he will free you to become the great leader you want to be so you can make a difference right where you are. Even when you're not in charge.

“Leadership without Easy Answers”
Author: Ronald A. Heifetz
Drawing on a dozen years of research among managers, officers, and politicians in the public realm and the private sector, among the nonprofits, and in teaching, Heifetz presents clear, concrete prescriptions for anyone who needs to take the lead in almost any situation, under almost any organizational conditions, no matter who is in charge. His strategy applies not only to people at the top but also to those who must lead without authority--activists as well as presidents, managers as well as workers on the front line.

“The Power of Positive Leadership”
Author: Jon Gordon
We are not positive because life is easy. We are positive because life can be hard. As a leader, you will face numerous obstacles, negativity, and tests. There will be times when it seems as if everything in the world is conspiring against you and your vision seems more like a fantasy than a reality. That’s why positive leadership is essential! Positive leadership is not about fake positivity. It is the real stuff that makes great leaders great. The research is clear. Being a positive leader is not just a nice way to lead. It's the way to lead if you want to build a great culture, unite your organization in the face of adversity, develop a connected and committed team and achieve excellence and superior results.

“The World is Flat”
Author: Thomas L. Friedman
In this brilliant new book, the award-winning New York Times columnist Thomas Friedman demystifies the brave new world for readers, allowing them to make sense of the often bewildering global scene unfolding before their eyes. With his inimitable ability to translate complex foreign policy and economic issues, Friedman explains how the flattening of the world happened at the dawn of the twenty-first century; what it means to countries, companies, communities, and individuals; and how governments and societies can, and must, adapt. The World Is Flat is the timely and essential update on globalization, its successes and discontents.

“The Tipping Point: How Little Things Can make a Big Difference”
Author: Malcolm Gladwell
The tipping point is that magic moment when an idea, trend, or social behavior crosses a threshold, tips, and spreads like wildfire. Just as a single sick person can start an epidemic of the flu, so too can a small but precisely targeted push cause a fashion trend, the popularity of a new product, or a drop in the crime rate. Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, which is already changing the way people throughout the world think about selling products and disseminating ideas.

**Change Management**

**“The Essentials of Theory U: Core Principles and Applications”**  
Author: C. Otto Scharmer  
What prevents us from attending to situations more effectively is that we aren't fully aware of that interior condition from which our attention and actions originate. Scharmer calls this lack of awareness our blind spot. He illuminates the blind spot in leadership today and offers hands-on methods to help change makers overcome it through the process, principles, and practices of Theory U. And he outlines a framework for updating the "operating systems" of our educational institutions, our economies, and our democracies.
