Trial was planted on May 19 with a seeding rate of 685,000 PLS and harvested on August 24.

<sup>1</sup> H = Hybrid, OP = Open Pollinated, LL = Liberty Link, CL = Clearfield System, HO = High Oleic, TR = Traditional Oil Type.

<sup>2</sup> Blackleg: R = Resistant. Blackleg rating provided by company.

<sup>3</sup> Early Vigor: Vigor of plants 4 weeks after planting where 1 = poor and 5 = excellent.

<sup>4</sup> DAP = Days after planting.

<sup>5</sup> Oil adjusted to 8.5% moisture.

<sup>6</sup> Rapeseed variety.

Due to the high CV% value for seed yield in 2011 no data is available. Additional data sites should be used for making decisions.
