Linden - 'Harvest Gold' - *Tilia x mongolica* 'Harvest Gold'

An upright tree that develops exfoliating bark as it gets older. 'Harvest Gold' is a hybrid, selected in Canada from a cross between littleleaf linden and Mongolian linden. Leaves are more like littleleaf linden than Mongolian linden. Hardy to Zone 2. It has an intermediate growth rate, slightly less than littleleaf linden. Flowers are fragrant, similar to other lindens.

General		Growth		Ornamental		Tolerances	
Family	(Malvaceae) - Linden	Growth Rate	Medium	Flowers	Showy	Shade	Low
