## **North Dakota Tree Selector**

## Arborvitae, American - *Thuja* occidentalis

A small to medium upright tree with a stout, buttressed trunk, native to Minnesota. Compact dwarf cultivars are widely used in landscapes. The tree is hardy in all zones but prefers a semi-moist site. Other common names are whitecedar and eastern arborvitae. An uncertain combination of winter conditions may cause infrequent winter injury in the Northern United States. The largest tree in North Dakota is 45 feet tall with a canopy spread of 30 feet. Compatibility with power lines depends on variety that is planted.

General	
Family	Cupressaceae - Cypress
Hardiness	To Zone 3
Leaves	Evergreen
Plant Type	Tree

Growth	
Growth Rate	Slow
Mature Height	25-45'
Longevity	Medium
Power Line	No

Ornamental		
Flowers	Inconspicuous	
Flower Color	n/a	
Fall Color	None	
Fruit Color	n/a	

Tolerances		
Shade	Medium	
Drought	Medium	
Flooding	Medium
