

North Dakota Tree Selector

Elm, Siberian - *Ulmus pumila*

A very hardy, fast growing tree with brittle wood which is subject to breakage. Extremely susceptible to insect, disease, and herbicide damage, which makes it an undesirable tree. Often confused with Chinese elm (*Ulmus parvifolia*) which is not hardy in North Dakota. The largest tree in North Dakota is 60 feet tall with a canopy spread of 55 feet.

General		Growth		Ornamental		Tolerances	
Family	Ulmaceae - Elm	Growth Rate	Fast	Flowers	Inconspicuous	Shade	Low
Hardiness	To Zone 3	Mature Height	25-45'	Flower Color	n/a	Drought	High
Leaves	Deciduous	Longevity	Medium	Fall Color	Brown	Flooding	Low
