LSD 5%	1	1.0	3	1.5	238
LSD 10%	1	0.9	2	1.2	197

<sup>&</sup>lt;sup>1</sup> DAP = Days after planting.

Trial was planted on May 18 with a seeding rate of 525,000 pls/A and harvested on September 9.

Previous Crop: HRSW

Tillage: No-till

Soil Type: Williams Loam

Note: The trial sustained early season herbicide injury delaying growth for approximately 14 days. View data with caution.
